THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

WEDNESDAY, OCTOBER 27, 1869.

MORE OF THE FRAUDULENT LEASE.

If there were an issue of fraud to be tried before a jury, impeaching the lease of the N. C. Railroad, for fraud, we would argue there is fraud,

I. Because of the haste

II. Because of the secrecy.

III. The inadequacy of the price.

IV. The character and former conduct of the parties, some of them having been engaged before in fleecing the State.

V. That there is a "Ring" for fleecing the State whenever it can be done.

VI. It has been done on divers occasions by them, as for instance,

1. In the Penitentiary purchase.

2. In the sale of the North Carolina Railroad bonds by the Treasurer, approved by the Governor.

3. In the appointment of Dr. Sloan as President of the W. C. & R. R. R.

4. In the appointment of A. J. Jones as President of the Fayetteville and Western Railroad.

5. In the Governor's appointment of Gen. Littlefield as State Printer.

6. In the Governor's appointment of Littlefield as President of the Western N. C. Railroad.

7. In the payment to Littlefield, of $100,000 to secure an appropriation of $3,000,000 to the Chatham Railroad Company.

8. In the contract for school books by Cape Cod Ashley and the Governor, under a law, that it is confidently declared, never passed the Legislature.

9. In the purchase of stationery by Dr. Menninger, Secretary of State, who gave the little negro ipecac to make her throw up the cake.

10. In the idle and lazy white man and negroes kept about the Capitol doing nothing.

11. In the payment of $7 per day to idle and incompetent "hands" to legislate for the State.

12. In the appropriation of $26,000,000 for Railroads.

13. In the election of carpet bag stragglers to Congress, such as Dewrese, Heaton and French, to positions they are incapable of filling creditably, or usefully.

14. In the warrant by the Treasurer, countersigned by the Governor, to pay for a platform on the 4th of July, upon which Judge Reade, representing the Supreme Court, spoke to grinning negroes and corrupt carpet baggers.

15. In the Bible's purchase of the public lands in Hyde county. (This not being yet accomplished, shall not be counted. But there are as many more, which we can enumerate, but time and space fail us.)

No wonder the eccentric Carlisle says, "we are on the big road to hell!"

JUDGE CANNON AND THE PRINCE CASE.

We notice the *Standard* parades a card, purporting to be written by two members of the Bar, attempting to palliate the conduct of "Judge" Cannon, in turning the Princes and another, who were charged with a most diabolical murder, loose, and effectually without trial. This card is simply *political*, and does not deny or explain away a single material statement we made.—What we said was, that the parties were charged with a bloody and fearful murder, that they were put upon their trial before "Judge" Cannon at the last Spring term of Cherokee Superior Court, that they offered cash for the other as a witness, the Solicitor for the State excepted, the Court held they were competent witnesses each for the other, but allowed a *juror to be withdrawn* and a mis-trial to be made, without the consent of the prisoners, and the State to appeal to the Supreme Court; that the prisoners' counsel then moved that they be discharged, on the ground that they could not again be put in jeopardy of their lives. The Supreme Court so held, and the prisoners were turned loose on society, without trial or punishment, for one of the bloodiest and most wanton murders on record.

We said that this Judge ought to be impeached, if he did this thing corruptly, and that he ought to be impeached, if he did it through ignorance or pure stupidity, and that such a Judge was a public nuisance.—We repeat this opinion now.

These gentlemen of the Bar do not pretend that this statement is unfounded, and if they did, the case is reported in 2 Phillips Reports, at page 529.

We did not say that Cannon was corrupt; we said it was difficult to believe any Judge was so ignorant and stupefied as not to know so unheard-of a thing was in violation of law. We are still of this opinion. And we are the more astonished that there was no lawyer there who could tell the "Judge" he was committing a grave and criminal Judicial *error*. Lawyers must be scarce in that part of the State.

We did not say this man Cannon was corrupt; we learn that he is not generally considered so, and we have heard one gentleman speak kindly of him, but no one pretends he is not criminally stupid and *innocent* of the law. The grave matter was, that this "Judge" turned the murderers loose on society, and this he did through his gross ignorance, if nothing else. The card amounts to nothing but a little parade and attempt at palliation.

THE MILITIA.

We had intended to allude to the subject of the organization of negro militia, again to-day, but finding it impracticable, to obtain certain information intended to be used, we postpone the subject to a future occasion. We will repeat, however, our suggestion of yesterday, that the movement is injudicious, and likely to lead to bad instead of good results; and it is, we think, much to be regretted it was ever inaugurated. Acts calculated to irritate the public mind can never be instrumental in producing tranquility. The surest road to peace, and the most certain method of preventing a still more horrible condition of affairs than has yet appeared, is, to for the Governor to do as the *Standard* of yesterday morning does, condemn all secret political associations, and wash his hands of the League. Or, if he cannot do this, so far as the past is concerned, let him declare he will do so for the future, and use his influence to break up the Leagues in the State. So long as Gov. Holden is looked upon as being connected with and protecting the Leagues, so long will he be without other influence than force of arms, (a terrible expedient!) to put down the lawlessness complained of. He must do this, and the people must *know* he does it, or the time will come when he will regret the folly of his decision. There is deep feeling in the public mind on this subject, a feeling that ought not to be lightly regarded.

Many members of the Leagues, if not under League instruction, have been guilty of most heinous crimes in the State, and have escaped the punishment due them.—The Leagues, whose members do these things, are under the wings of the Governor. He knows the state of public feeling in regard to the matter, and yet wraps himself in majestic silence, so far as the Leagues, his connection with, and protection of them, are concerned; and he issues his proclamation against *another* secret organization, (if there really be one,) who punish, unlawfully, it is true, the supposed or known perpetrators of crimes committed by his Leaguemen, and, furthermore, he selects his militia from the lowest class of his Leaguemen, puts them under the command of a carpet-bag stranger, who has no sympathy with our people, and whose course, since he has been here, has not been of a character to inspire their respect, and expects, by these means and under these circumstances, to restore tranquility to the disturbed districts of the State! If he should succeed in this way, he will have established a precedent unparalleled in the history of freemen.

The Asheville *Pioneer* says that Marcus Erwin, Esq., has accepted the position of Editor of the Raleigh *Standard*, and will enter upon the duties of his new position shortly.

WHO IS SENATOR COOPER.

Many persons, not posted in regard to the antecedents and present status of the coming men of the times, desire to know something of the man who got the inside track of A. J., for the United States Senatorship from Tennessee. On this subject we clip the following from the New York World of the 23rd inst.

The successor to Senator Joseph S. Fowler on the 4th of March, 1871, will be Henry Cooper, at present a member of the State Senate of Tennessee. Mr. Cooper is a native of Maury County, and is nearly 50 years old. He removed to Bedford County when a young man, and for several years represented the district in which that county is situated, in the lower branch of the Legislature. During the late war he was a strong, though not violent, Union man, and received from Governor Andrew Johnson the appointment of Judge in one of the State courts. During his term on the bench he sought several times to resign, but his resignation was not accepted; and Governor Brownlow, in a message to the Legislature, referred to him as one of the purest and most upright members of the State judiciary; and, though opposed to him politically, earnestly protested against his retirement. In 1866, however, he accepted a chair in the faculty of the Cumberland University, at Lebanon. He was chosen to the State Senate as a Senter Conservative at the recent election, beating his Radical opponent by a large majority.—Judge Cooper has been regarded in Tennessee as one of the rising statesmen of the South west, and is very widely esteemed for his eminent abilities and spotless character. He is a personal friend of ex-President Johnson, and has voted for him for Senator in every ballot. His brother, Edward Cooper, lately a member of Congress and now a State Senator was, for some time, Mr. Johnson's private secretary. The new Senator is a man of small stature, with a good personal presence and an extremely affable manner. It has been supposed that he was unambitious of the honor now thrust upon him, for he is modest and somewhat diffident, and has not permitted his friends to canvass for him as a candidate. He seems to have been taken up at the last moment by the combined opposition of ex-Confederates and extreme Radicals as the only man capable of defeating Andrew Johnson, and his election was probably as unexpected to him as it is to the country at large.

Mr. Cooper is one of the ablest lawyers in Tennessee. He was one of military Governor Johnson's appointees to the judiciary, and was commended for integrity as an officer by Governor Brownlow in a message to the Legislature. He gave a decision in the Sherbrooke-Ridley case, now pending in the United States Supreme Court, that our franchise is unconstitutional. On retiring from the bench he became Professor at the Lebanon Law School, and after resigning that position removed to Nashville.

RALEIGH.—Except Charlotte, there is no place in the State that has improved so much since the war as Raleigh. We saw that many new buildings had been and are being erected of the most substantial kind.

The new Blair Hotel near the Capitol is an elegant establishment, and will be fully ready for the reception of guests by the 1st of November. It will be kept by that prince of landlords, J. M. Blair, who is the cleverest and most accommodating Hotelman we ever met. He will also continue control over the Yarborough House, where he has given general satisfaction for several years past.—*Charlotte Democrat.*

For the Sentinel.

BRISTOL, TENN., Oct. 21st 1869.

MR. EDITOR:—Your State Fair, I suppose, is now going on, and I hope you have better weather than is prevailing here.—This is one of the rare, wet days we have had in this region since May; and if it is as cold, sloppy and muddy in Raleigh as it is here, your Fair will have a very unfair chance, and your fair must be miserably disappointed. I cannot but hope that a new era is now dawning in our beloved State, and that her varied and unequalled resources will hereafter attract more attention, and draw more skilled and persevering efforts to their development than at any period in her past history. And here I am tempted to offer a suggestion. The State Agricultural Society, to accomplish much, ought to have affiliated County Societies all over her diversified and widely extended territory. The Central Fair will never furnish a full illustration of the interests and capabilities of all parts of the State; nor will its exhibitions exert a general influence on the mass of agriculturalists in every section. I find in Tennessee successful agricultural societies in all the leading counties, especially in the middle part of the State; and the annual Fairs of these local societies are really more interesting than the State exhibitions, drawing out large numbers of every class of the population, and displaying in due view, the people, the fashions, the arts and the productions of the community.

The County Fairs are great social reunions, and here all professions, ranks, sexes and ages are brought into friendly intercourse; and the permanent structures for these Fairs, and the conveniences and decorations are superior to any we have ever had at our State capitol. Immense crowds attend these occasions; they have bands of music, and often vast preparations for dinners, made orderly and inviting by the presence and attentions of the first ladies of the community. Another feature of these Fairs is the successful effort made at them to raise money for orphan schools, asylums, cemetery associations, and other benevolent purposes. There are stands, with appropriate inscriptions, and managed by ladies; and here are sold fruits, flowers, cakes and other refreshments, with numerous articles of handi work, and heavy sums are realized for the purposes intended.

And now, may I make another suggestion? Why should we not, in North Carolina, as in other States, have an annual exhibibition of flowers, fruits and products of the gardens? These things demand separate societies, and exhibitions devoted exclusively to them; such societies are very useful in other places, and their exhibitions exceedingly interesting, and in no State can they be made more important, more showy and delightful than in North Carolina. Ours is the "central, flowery land" of America; our native plants are more numerous than any other State in the Union, our Flora the richest and most varied on the Continent, and no State can excel and few equal it in the excellence of its fruits, and in the variety and flavor of garden products.

Let us by all means have a floral and pomological Society, with annual exhibitions—and may the time soon come, when our annual fairs, will display the full capabilities of the best region of the globe, and be attended by numerous and orderly throngs of a united, free and happy people!

NORTH CAROLINA.

From the Galesburg (Ill.) Press, October 9.

A NOBLE HOD-CARRIER—ROMANTIC ADVENTURES OF AN AUSTRIAN BARON.

On Thursday afternoon last Col. Carr, the postmaster, received a heavy sealed document at his office postmarked "Vienna," and directed to "Herr Carl von Vechter, Galesburg, Knox county, State of Illinois, United States of North America." Knowing that the massive letter must be of importance from its crested seals and general official appearance, he dispatched Mr. William Post, chief clerk of the office, in search of the Herr von Vechter. Mr. Post made diligent inquiry of several, but could not find any trace of the individual wanted, until he met with Mr. John Loos, the well-known saloon keeper on the east side of the square. Mr. Loos knew a Charley Vechter; he was working on the new hotel building, and both walked over there, where they found Vechter about to ascend a ladder with a hod on his shoulder.—When Mr. Post handed him the letter, and he read it, the delight of the hodman knew no bounds. He threw his hodful of brick away, and embraced Mr. Loos, calling him his dearest friend. The letter contained a draft for $7,000 on the First National Bank of Chicago, and he insisted on paying Mr. Post $500 for being the bearer of such joyful tidings as the document contained, which, of course, Mr. Post refused.

This morning Herr von Vechter, arrayed in a suit of fashionable clothing, and having passed through the hands of the barber, called at our office in company with Captain Henry Heinrich an attache of the *Free Press* establishment. No one could recognize in the noble looking personage before us the ex-hod-carrier. His manly and commanding appearance attracted general attention and remark, and the ease and suavity of his manners were truly remarkable. He clearly and succintly related to us the eventful chain of incidents in his career, which terminated in his carrying a hod in Galesburg. In the year 1857 Herr von Hechter (being then nineteen years old and of a noble family) entered the Austrian army as lieutenant, and through regular gradations, in 1860 rose to the rank of major. In the month of September of that year he was insulted at a levee by the Colonel of his regiment. Proud and high-spirited, he resented the insult, and a challenge was passed between the two officers. They met (pistols at ten paces) and the Colonel fell. With great dilligunty Vechter eluded the authorities, and at length escaped to England. There he remained but a short time, and finding no suitable employment, he embarked for the United States, and upon his arrival proceeded to Chicago. He arrived here the day the intelligence of the fall of Fort Sumter flashed through the country, and his means being nearly exhausted, he enlisted in the Ninth Illinois, then being organized. The man who had worn the epaulets of an Austrian officer for more than three years carried a musket in the ranks of that battalion, and was severely wounded at the battle of Pittsburg Landing. When he was mustered out he obtained employment of various kinds, and endured many vicissitudes incident to the lot of a laboring man. He feared to write to his relatives, as the Austrian Government might learn his whereabouts and cause his apprehension under the extradition treaty, and so he suffered and toiled in silence, until finally he found himself in Galesburg carrying a hod on the new hotel.

The packet he received yesterday contained a full pardon under the sign manual of the Emperor. The Colonel had only been severely wounded, and freely acknowledged that he alone had been in fault, and that the duel had been of his own seeking. By the death of his uncle, von V. inherits a rich estate and the title of Baron.

GENERAL NEWS.

The St Petersburg physicians predict that the Empress of Russia will die in the course of the next six months.

At an auction sale in Greenland, N. H., on the 13th, a cut glass decanter, four wine glasses and two tumblers, which once belonged to Commodore Paul Jones, were sold for $50.

There are rumors in Washington of a decided Senatorial opposition to confirming Robeson as Secretary of the Navy. It is held that Pennsylvania deserves a place in the Cabinet and New Jersey does not.—Senator Drake, of Missouri, who aspires to the chairmanship of the Committee on Naval Affairs, is personally opposed to Porter and, as a consequence, to Robeson.

The bones of six men and forty-six horses, supposed to be the remains of a party lost from Fremont's exploring expedition twenty years ago, have been found in Southwest Colorado.

The identical towel which Hannah Dustin used to tie fifteen Indian scalps, at the time she escaped from captivity and returned to Haverhill, is now in a good state of preservation, and is handed down as an heir-loom in the family of Charles H. Rowell, of Randolph, Mass.

The absurdity of the feminine termination, as frequently employed, is forcibly illustrated by a San Francisco paper, which says that "as a billiardiste, Elise Holt is not a successistea."

It is rumored that Hon. Jeff. Davis is to become President of a Life Insurance Company of Memphis, and to reside at Hernando, Miss. Hon. Felix Labouve, of Hernando, has subscribed $1,000 for a fund to aid him.

The fact that the Indiana Democratic State Central Committee has ordered the State Convention to be held on the 8th of February has caused considerable discussion in Republican circles as to the proper time of holding the Republican State Convention. Heretofore it has been held on the 22d of February, but there is a feeling in favor of deferring it until spring, after the adoption of the fifteenth amendment shall become a fact. It is too early to predict what course will be pursued.

Gov. Clayton, of Arkansas, made a speech on Friday last which has created the most intense excitement among all classes, particularly among the members of the Republican party. The Governor announced himself in favor of enfranchising every one as soon as it can be accomplished. He favors the reduction of taxes and doing away with at least $10,000 worth of offices created by the last General Assembly, and the reduction of the salaries of all State officials.

A Mr. Bowers, of Harrisonville, Cass co., Missouri, was arrested and charged with abducting and murdering a young lady, and tried before a Justice of the Peace.—While the trial was going on, the young lady appeared before the Justice, but he refused to take her evidence whether she had been killed or not, and committed Bowers for murder. Bowers was discharged on a writ of habeas corpus.

Considerable excitement has existed lately in a certain neighborhood in Monegaw township, twelve miles west of Osceola, Mo., over certain mysterious doings. The house of a Mr. Dade has been "rocked" for several nights, the missles coming from no one knows where. Watches have been kept by a number of neighbors, and though the "rocking" continued, no person could be discovered. The house stands in a lonely and secluded spot, and as the occupant has no enemy which he can charge with the fact, it partakes of the spiritual or the superstitious.

A CHOICE BIT OF WASHINGTON GOSSIP—SENSATION AMONG THE DARKIE—AMOURS OF A MEMBER OF A FOREIGN LEGATION AND AN AFRICAN BELLE.—There is considerable talk just now in Washington circles about an *affaire d'amour* between a certain young gentleman connected with one of the foreign legations here and a certain colored young lady, who is described as extremely beautifully and attractive. The young gentleman, the story goes, become so completely bewitch that he escorted the lady to the public places, and was not only seen promenading with her on the streets, but even in her company at the theatre. The lady, it seems, bears so little trace of her African origin that unless very closely scanned she would pass for a white; hence the ease with which she gained admission to the theatre undetected. You have heard of the three colored gentlemen who smuggled themselves into the National theatre here a few weeks ago and were compelled to leave on being discovered. Well, it turns out that the trio had another object in that visit to the theatre than the one generally assigned. They went there so much for the purpose of "setting" the beautiful young colored lady in the company of her distinguished admirer as of testing their right to admission on a white quality. The young lady was there that very night, and the circumstance became known to a great many respectable white ladies who were acquainted with the gentleman accompanying her. The next morning the affair was in the mouth of all the gossips, male and female, and the sensation that resulted was so unpleasant to the gentleman who constituted the hero of the scandal that he fled from this city to New York for protection. Altogether it is about the largest social scandal of the season.—*Wash. Cor. N. Y. Herald.*

THE SENTINEL.

CITY AND STATE ITEMS.

WEDNESDAY, OCTOBER 27, 1869.

☞ THEO. N. RAMSAY, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

NEARLY COMPLETED.—The two new stores on the site of the old Planters Hotel, the one belonging to Messrs. Upchurch and Dodd, the other to Col. J. N. Bunting, are nearly completed, the painters being engaged in putting on the finishing touches. These are two of the largest stores in the city and are an ornament to the street on which they are located. Messrs. Upchurch & Dodd will occupy theirs on the corner as a wholesale and retail grocery establishment, and, we understand the other will be occupied also as a grocery, by the Messrs Lesch, formerly of Chatham county.

THEIR ANIMUS.—Passing a squad of the Governor's newly enrolled militia, yesterday, we heard one say, "all we've got to do is to go up dar and burn de houses and plantations of some o' dem dam Ku Klux, and dat will bring 'em to da senses." A lady heard part of a conversation of two of them, as they passed her residence Monday afternoon, in which the expression "we'll give them hell when we go up to Orange," occurred. We have been told of many similar expressions that have been used by them, which go to show their *animus*, and the course likely to be pursued by them when sent off "to hunt for Ku Klux," as we heard one of them express it; and we know what restraint their commander is likely to exercise over them, by his great success in that line, in Goldsboro,' on the return of the Jones county expedition.

THE FALSE IMPRISONMENT CASE.—We mentioned yesterday that Messrs. Jasper and Parham Waddle, had been charged with disorderly conduct on Saturday night, before the Mayor, and dismissed for want of evidence against them. Yesterday they sued out a writ against the officer who made the arrest, and the case came up before Esquire Adams, who after a hearing of the evidence and argument of counsel, dismissed the case at the plaintiffs' cost.

OYSTERS.—Mr. W. D. Smith, S. W. corner of Wilmington and Hargett streets, keeps fresh oysters of the regular "Norfolk brand," they arrive by each evening's train, and will be furnished to customers at reasonable prices. He also keeps fresh fish, of the varieties now in season. "The proof of the pudding is eating it," according to which proverb we recommend the above.

TEN INSTEAD OF FOUR.—In a recent issue we stated that Miss Blanche Fentress was awarded a premium of *four* dollars for the beautiful Oriental crystal painting she prepared during the first two days of the Fair, to replace the one broken in taking it to Floral Hall. We were in error as to the amount; the premium was *ten* dollars, instead of four.

AN ANCIENT LANDMARK OF RHAM-KATT.—While quietly seated in our easy Local Chair, last night, about the hour of eight, our ears were pierced by the startling screams of a female in distress. Rushing out to learn the cause and occasion thereof, we ascertained that the cries came from one Mrs. Vandergrif, in the hands of a policeman, on her way to the guard house.

MRS. V., is one of the ancient relics of the City of Rham-Katt, who, as is her want, when she comes to town, had taken too much of the highly taxed luxury, known as corn juice, hence her unfortunate predicament.

BISHOP ATKINSON.—We learn from the *Wilmington Journal* that this eminent prelate has been detained in Baltimore by slight indisposition. He is expected home about the last of the present week.

A very successful tournament came off at Enfield on Thursday last, notwithstanding the inclemency of the weather. G. W. Branch, the "Knight of Despair," carried off the ring and the honors, crowning Miss Bettie Tillery, "Queen of Love and Beauty." The next knights in order of honors were J. N. Gammons, "Knight of Texas," J. B. Higgs, "Knight of Warsaw," and S. F. Arrington, "Knight of Malta," who crowned Misses M. Annie Bell, Marian Pope and Bettie Whitfield, all of Enfield, "Maids of Honor."

A TESTAMENT FOUND.—A friend has left at this office a small, plain copy of the New Testament, picked up on the street, which has the name "M. A. Nowell" written on the fly leaf, and is a present from the owner's mother. It can be had on application at this office.

We learn from the Asheville *Pioneer* that the following appointments have been made by the Holston Conference at its recent session at Jonesboro:

Asheville District—P. M. Pannino, P. E.
Asheville, Samuel Bogart.
Burnsville, to be supplied.
Catawba, Wesley Harkins.
Transylvania & Henderson, to be supplied.
Sulphur Spring, John G. Trull.
Waynesville, B. F. Wells.
Webster and Franklin, R. M. Witt.
Fort Emory and Murphy, W. A. Marshall.
Buncombe, to be supplied.

ON ACCOUNT of the great number of wonderful CURES of *obstinate* and *inveterate* cases of SCROFULA, DYSPEPSIA, LIVER DISEASE, KIDNEY AFFECTIONS, GENERAL BAD HEALTH &c., made by the *celebrated* "KOSKOO," it has won the *enviable reputation* of being the *best* and *most popular* medicine *ever discovered*. It is daily prescribed by physicians and recommended by many thousands of our best citizens. For sale by Druggists and Merchants everywhere.

Ladies suffering from any disease peculiar to their sex, can be restored to health by using DR. LAWRENCE'S "WOMAN'S FRIEND." It purifies the secretions, and restores the system to a healthy condition.

REMINISCENCES OF THE FAIR.

We hope our readers will not tire with our frequent allusions to matters pertaining to our recent State Fair. We look upon it as a very important epoch in the history of our industrial enterprises, and we think that all connected with it, and those who, in face of difficulties, contributed either in way of labor, correspondence or contributions, to bring it to the point of success which it attained, ought to have full justice done them, and not be laid on the shelf in the public mind, to be taken down again when wanted to help in the next exhibition.

We all know that Mr. Battle, the President of the Society, labored most earnestly and successfully in bringing the subject of the Fair prominently to the notice of leading men in the various industrial pursuits throughout the State, and to him the Society is indebted for much of the interest given to the Fair by having these departments represented by Essays and products for exhibition.

To Rev. J. Brinton Smith, also, whose time and energy were so earnestly given to the arranging of the grounds, and conducting the details of the exhibition, was the Society in no small degree indebted for the gratifying success of the occasion; while all the members of the Executive Committee are entitled to the thanks of the Society and of the State for their intelligent and earnest co operation in promoting the objects in view in getting up the Fair.

We deem this, and much more that might be said in this behalf, due to all concerned. At the same time we think the material for thought and reflection; for suggestion and improvement, furnished by the occasion, ought not to be lost sight of or misimproved, but used to the promotion of the cause of industry and the advancement of the art of better living, among our people. To promote this end we took copious notes during the four days of the Fair, to be worked up as we might have leisure, and as our judgment might direct as most conducive to the end in view; namely, the promotion of the material interests, happiness and prosperity of the people of our native State. To do this the more successfully, we requested and obtained the promise of, essays or written communications on several enterprises, comparatively new in this State, especially in regard to grape culture, the raising of bees, the progress of manufactures &c., which communications we shall publish, when received, for general information on those subjects.

And, now, we will dismiss the subject of the Fair, for to day, to be resumed again soon.

THE GOVERNMENT'S LAST BLOW AT THE CUBA—PREPARATION FOR DISMANTLING THE STEAMER—SHE IS STRIPPED OF HER SHIP'S SUPPLIES.—Under the personal supervision of the United States Marshal for this State, S. T. Carrow, assisted by Deputy Marshal Neff, preparations were made yesterday, for dismantling the Cuban man-of-war "Cuba," forcibly seized by the Government last week. A flat and small tow boat were carried alongside in the afternoon and a considerable portion of the ship's supplies taken off. These are still being removed and stored in one of the warehouses attached to the Custom House.—It is then proposed to remove the powder and shell on board to some safe magazine—in all probability to Fort Caswell—and then tow the steamer up to the Custom House wharf, where the work of dismantling will be completed by the removal of the guns, etc. There is now on board the *Cuba* 8,100 pounds of loose powder in the magazine, besides numerous percussion shell and cartridges. Too much care cannot be exercised in their removal, and none of this ammunition must be allowed to come within the city limits. In this action we undersand the Marshal is acting under orders from Washington. But one more act in the drama is to be performed—the condemnation and sale of the vessel. Whether the Government will await the due process of law through the Courts or conclude its arbitrary action by one more arbitrary still remains to be seen.—*Wil. Journal.*

We don't understand the above proceedings on the part of the Government, at all; the trial of the case of the Cuba is still progressing at Wilmington, the Government conducting it before her own Commissioner, but, from the above, it seems, the matter is already settled at Washington.

The ruins that have been discovered in Cambodia, Cochin China, says the *Revue Coloniale et Maritime*, prove that the inhabitants must at one time have been as highly civilized as they are now debased. Remains of sculpture have been discovered rivaling those produced in Greece in its best days. Well built bridges have been discovered in many parts, and the expedition conducted by M. de Lagree found remains of the same and other constructions as far as the fifteenth degree of north latitude. So extensive and numerous are these remains that they are considered to prove beyond dispute that at the time when they were built the country must have been densely populated by people rich and prosperous to a very high degree; indeed, there is positive evidence of the fact in the writings of a Chinese traveller, who speaks with warm admiration of the lavish manner in which gold was employed in the decorations of their monuments.

When the new Union Hotel of Leland Brothers, at Saratoga, is completed, it will be the largest hotel in the world. It will have a frontage of 1,050 feet, five stories high. It will be built of brick, and the building will be divided into nine compartments, almost fire-proof. It is to be finished and furnished, ready for the reception of guests, by the first day of June next.

The appearance a night or two since of a brilliant aurora borealis at Norfolk, Va., caused a fire alarm to be sounded, emptied the theatre, and brought out all the engines.

THE LOUISIANA EQUITABLE LIFE INSURANCE COMPANY OF NEW ORLEANS.—This is one of the very best companies in the country. It has the endorsement of Bishop Wilmer, Gens. Beauregard, Hood, Harry Hays and the leading men of New Orleans. General Beauregard says: "Its Officers and Directors have been selected from our most reliable and intelligent citizens.

Instead of sending $40 000,000 annually North, our citizens can find better companies at home.

Joseph Ellison, President, New Orleans Louisiana.

DIED:

In Chapel Hill on Saturday morning 23rd inst., MRS. MARY DRAGO WATSON, relict of the late Wm. Watson, aged 84 years. This venerable woman was Chapel Hill's oldest inhabitant, and one of its worthiest.

MRS. WATSON came of the Bragg family in Mecklenburg county Va., and just sixty-three years ago Sept. 22, 1803 immediately after her marriage, arrived in Chapel Hill, where she has resided ever since.

Sixty-three years is a long time in the history of one of our North Carolina villages. MRS. WATSON was an invaluable chronicle of the many changes she had seen in this village and University. Gov. Swain was especially fond of calling on her for information as to the old times and old dwellers on the Hill. Once, a number of years ago, he went to her to ascertain the particulars of a long forgotten scandal, affecting one of the early officers of the University. MRS. WATSON responded very readily to all his queries, till he came to that point, when she stopped; "No, no Governor," she said, "I have nothing to say about that; I'll tell you all the good I know, but I won't tell you any harm of anybody, dead or alive." The Governor was very much pleased with this rebuff, characteristic of one of whom the universal testimony now is that she was a good woman, and a good neighbor in whose lodges dwelt the law of kindness.

She raised a large family of children in habits of thrift and industry to be among the best citizens of our village, and the comfort and support of her old age. She became a member of the Methodist Church under the preaching of Dr Deems, when he first came to Chapel Hill 26 years ago, and died as she had lived, resting on the truths taught in her Bible. The very large concourse at her funeral testified to the general affection and esteem in which she was held by all classes of our community. C.

Koskoo!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the Country

AS A GREAT AND GOOD MEDICINE,

has induced Dr. LAWRENCE to ENLARGE HIS LABORATORY AND FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons WHO HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER, it HAS NO EQUAL,

BEING POSITIVELY THE

Most Powerful Vegetable Alterative

YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become tainted from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—CAUSES imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white co t. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are affected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near A SPECIFIC as ANY remedy can be. It does its work KINDLY, GENTLY, and SURELY. The RELIEF which it affords is both CERTAIN and PROMPT.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the IMPORTANCE of their healthy action.

Regular and sufficient action of the KIDNEYS is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to URINATE more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, prove irritating to the Bladder and Urinary passages. When we reconsider that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, [mental and physical] are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows. A dull, heavy fowing in the head, sometimes more or less severe p

SCHOOL BOOKS.

UNIFORM SYSTEM OF

Raleigh, N. C., Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of Mr. Alfred Williams, for the following books, which were adopted Aug. 9th, 1869, by the State Board of North Carolina for uniform use in the Public Schools:

Parker & Watson's National Primer.
Parker & Watson's National Spellers.
Parker & Watson's National Readers.
Davies' Arithmetics.
Monteith & McNally's Geographies.
Monteith's Youth's History of the U. S.

The New Descriptive Geography of North Carolina will be ready about the middle of October prox. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

Prof. Jerome Allen's Complete System of Map Drawing will also be furnished to the Public Schools with Monteith & McNally's Series, without extra charge.

The books will be supplied at exceedingly low rates to the Public Schools in the state.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

Pupils attending the Public Schools will, in accordance with the state contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Quackenbos' Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by
ALFRED WILLIAMS,
Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with
C. W. LAMBETH,
Agent for the Publishers
and Sup't of Introduction.

From Dr. Wm. B. Harrell, Prin. High School, Snow Hill, N. C.:

Snow Hill, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no other when these could be obtained.

From Rev. Albert Smedes, D. D, Rector of St. Mary's School, Raleigh, N. C.

Raleigh, N. C.

I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable.

ALBERT SMEDES.

From J. W. Gulick, A. M., Prin. Male Academy, Goldsboro', N. C.:

Goldsboro', N. C.

I find your books are in use in many schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Ganot in particular.

J. W. GULICK.

From Col. Wm. Bingham, Prin. Bingham School, N. C.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Boardon, perhaps others of your books."

From Dr. Close, Prin. Durham Academy, N. C.:

Durham, N. C.

I design introducing the present session McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition.

M. Close.

From M. L. Little, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.:

Newton N. C.

Will introduce the University Arithmetic next term. Have examined it with much satisfaction. An admirable work.

M. L. LITTLE,
Prin Pleasant Hill Seminary.

From Rev. S. Ives, Prin. Auburn Academy, N. C.:

Auburn, N. C.

Monteith's Geographies are excellent works, and I shall introduce them into my school.

STINCEON IVEY.

Prof. Wm. A. Obenchain, writing from Hillsboro' Military Academy, says:

"The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. Dugger, Esq., Prin. Male Academy, Warrenton, N. C.:

Warrenton N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined, with a view of introduction, "McNally's Geography" [No. 5] and "Peck's Ganot's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation.

J. E. DUGGER.

From W. C. Kerr, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. Bernheim, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.

Mt. Pleasant, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purposes.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Ganot, with much acceptance.

G. D. BERNHEIM.

From Prof. Jos. H. Fet, President Statesburg Scientific High School, N. C.

Wilkes, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the "National Series of Readers and Spellers" the best with which I am acquainted. I shall hereafter use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I like Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——— which stands next best on the list.

McNally's, the fifth book of the course, is decidedly the chef d'oeuvre of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit.

J. H. FOY

From the Statesville, N. C. American, February 20th, 1868.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co., of New York, are now issuing large editions of these Standard School Books for the southern States. The series consists of the National Primer, or Word Builder, National Elementary Speller. The National Readers 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the States.

From the Raleigh Daily Progress, Feb 20, 1868.

National Second Reader.—We have never examined a volume of this class which we could commend more cordially to parents and teachers.

From the N. C. Presbyterian, March 7, 1868.

National First Reader.—We recommend it to all who desire a valuable book of instruction for beginners.

From the Wilmington, N. C. Daily Herald, 1868.

The National Series has attained probably a higher reputation than any other complete series of School Books now in existence.

THE UTLEY

COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS. H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

Knickerbocker,	$16,84
Equitable,	17,44
North America,	21,16
Brooklyn,	21,09
Universal,	27,24
John Hancock,	18,27
The National,	63,48
The Ætna,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 589 policies, received an income of seventy-eight thousand dollars, and possessed net assets amounting up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13 237 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
